# VOL. 7 SUBJECT INDEX

**A**

Accreditation, 355–356
Adolescent, 138–166
Affect, 386–390
Affective processes, 373–385
Anxiety sensitivity, 403–417
Attributions, 48–67
Avoidant personality disorders, 3–16

**B**

Behavior therapy, 95–98
Borderline personality disorder, 68–86, 87–91, 92–94, 95–98, 99–100, 101–103, 113–119
Boulder model, 120–124, 364–367

**C**

Canadian clinical psychology, 269–272
Chest pain, 403–417
Chronicity, 203–218, 224–227, 232–235
Clinical practice, 120–124, 243–258
Clinical training, 243–258, 357–360, 361–363, 364–367
Clinical trials, 243–258
Cognition, 391–393, 394–399
Cognitive-behavior therapy, 113–119, 189–202, 373–385, 386–390, 391–393, 394–399, 400–402
Cognitive factors, 228–231
Cognitive reactivity, 228–231
Cognitive science, 400–402
Common factor, 273–290
Connectionism, 386–390
Construct validity, 355–356
Cortisol, 418–434
Criterion referencing, 361–363

**D**

Dementia, 317–328
Depression, 203–218, 224–227, 228–231, 232–235, 236–239, 317–328
Dialectical behavior therapy, 68–86, 87–91, 92–94, 95–98, 99–100, 101–103, 104–112, 113–119
Disgust, 291–311
Dissemination, 104–112, 120–124
Doctoral training, 364–367, 370–372
Drug, 138–166

**E**

Effectiveness, 87–91, 113–119, 120–124, 264–268
Efficacy, 264–268
Efficiency, 264–268
Emotion, 291–311, 373–385, 386–390, 391–393, 394–399, 418–434
Emotion theory, 3–16, 400–402
Empirically validated therapies, 68–86, 92–94, 95–98, 101–103, 113–119, 243–258, 264–268, 269–272
Ethical codes and principles, 337–344
Ethnicity, 337–344
Evidence-based medicine, 264–268
Evidence-based practice, 269–272
Exposure therapy, 391–393

**F**

Faculty, 346–354, 361–363
Fathers, 435–453
Fear, 291–311

**G**

Geropsychology, 312–316, 329–336
Graduate training, 357–360, 364–367, 368–369, 370–372

**H**

Heart-focused anxiety, 403–417
HIV-AIDS, 32–47
Homework assignments, 189–202
Hypochondriasis, 403–417

**I**

Implicit processes, 386–390
Infants, 418–434
Interparental agreement, 435–453
Interpersonal explanation, 203–218

**L**

Legal status of psychologists, 259–263
Literature review, 68–86
Long-term care, 312–316, 329–336, 337–344

**M**

Measurement, 264–268
Mediators, 3–16
Mental health policy, 259–263
Mental illness stigma, 48–67
Meta-analysis, 189–202
Meta-analytic review, 435–453
Moderators, 3–16
Mothers, 435–453
Motivation, 394–399

**N**

Networks of association, 386–390

**O**

Older adults, 312–316, 317–328, 329–336, 337–344

© 2000 AMERICAN PSYCHOLOGICAL ASSOCIATION D12

Outcome, 127–137, 138–166, 189–202, 243–258
Outcome-based evaluation, 355–356

P
Panic disorder, 403–417
Phobia, 291–311
Placebo, 273–290
Postpartum depression, 17–31
Prediction, 236–239
